Please complete these steps for both the stacked and horizontal logo versions.

"ISLAND" can be rendered once and used for both logo versions.

Edit your text into the unexpanded extruded effect on the right. Please ensure the size and hierarchy matches the EN communication with "Island" larger.

Typeface = Loyola!

Expande the art. Separate the top text and the backround extrusions. Complete the background extrusions manually if some parts are not rendered.

t

Copy/paste "CLUB PENGUIN ISLAND" twice. Move the top layer as shown to the right. Use the pathfinder to cut out the top step shading.

Change it to the color swatches shown on the right.

Copy/paste "CLUB PENGUIN ISLAND" twice. Move the top layer as shown to the right. Use the pathfinder to cut out the top step shading.

Change it to the color swatches shown on the right.

Copy/paste the bottom background layer twice. Move the top layer as shown to the right. Use the pathfinder to cut out the step shading.

Change it to the color swatches shown on the right. Change the layers style to overlay at 75%.

Copy/paste the bottom background layer twice. Move the top layer as shown to the right. Use the pathfinder to cut out the step shading.

Use the pen tool to add in the corner pieces as shown on the right.

Change it to the color swatches shown on the right.

Add the cartoon highlights. Follow the EN example.

Note the lightsource is coming from the top right and left. The dots appear at the bottom after the light fall-off.

Change the highlights to the color swatches shown on the right.

Copy/paste the entire "Club Penguin Island" word mark.

Ensure "CLUB", "PENGUIN" and "ISLAND" are grouped separately. We will need these separated for motion graphics.

Expand the art using the pathfinder tool. Add a stroke as shown on the right. Ensure stroke size is visually the same as the EN logo.

Expand the inside and stroke art and combine—ensuring each word is combined separately.

Change to the color swatch on the right.

Add blue shapes to fill in small holes. Leave larger holes.

Complete the above steps for the horizontal version of the logo for "CLUB PENGUIN" only.

Copy/paste "ISLAND" from your completed stacked version and enlarge it to match the EN horizontal logo.

Create and save the variations of logos that are created for EN, including the reverse versions.

Make "Disney" and "TM" white. Add a drop shadow behind "Disney" by copy/pasting it and nudging it down.

Please save and name the files the same as the EN versions.
